

Jasper Highlands Starts Spring With Lots of Success

April 19, 2017 by LandMan

The spring season here at Jasper Highlands started with a bang! New property owners came from all around the country to find their perfect homesite here on the Cumberland Plateau resulting in three weeks of over one million in sales each! On Saturday April 1st, property owners and their guests came to Pat's Summitt for another beautiful event at our pavilion.

The new properties in the third phase of the development 'Sunset View' were shown for the first time and several were taken off the market right away. Jasper Highlands' first spec home in the River Bluffs section was sold to a great couple from Michigan who decided to literally 'sell the farm' and move south for warmer weather and an easy going mountain lifestyle.

Under the pavilion at Pat's Summitt, folks were entertained by a great bluegrass band as they enjoyed a wonderful dinner and watched the semi-finals of the NCAA basketball tournament.

Our next sales event is planned for the last week in May - will you be traveling through southeast Tennessee around Memorial Day Weekend? We would love to show you our beautiful mountain community!

More Soon On The Fence Post...
